

USC Daily Health Screening for Students

Please Use this checklist to screen yourself and your child before bringing them to campus.

1. Does your child, household member or close contact of your child have a COVID-19 infection?

Yes

No

2. Please complete the following symptom checklist for your child and household members. Please also note if a close contact has had any of these symptoms.

Symptom Checklist

	Child	Household Member	Close Contact
Fever (at or over 100.4F)			
Cough			
Body Aches			
Sore Throat			
Diarrhea/Vomiting			
Headache			
Loss of taste/smell			
Difficulty breathing			

If you answered yes to any of the above, please cancel bringing your child to campus.
